SYSTEMS INTEGRATORS IN EUROPE – THE TOP 500

IT Europa's Systems Integrators in Europe – The Top 500 market intelligence database report can help you unlock some of Europe's largest markets. Between them Europe's leading Systems Integrators achieve annual sales of around 150 Billion Euros, reinforcing their position as the primary channel to some of Europe's most lucrative markets. These companies now specify and create complex IT solutions and advise on hardware, software, service and system choices for most of Europe's major organisations and building strong relationships with them is vital to any vendor or service provider.

The System Integrators in Europe - The Top 500 report is an essential database source for anyone targeting either the Private or Public sector hardware, solutions or services markets.
